

Geri Adam Saputra

FULLSTACK DEVELOPER

geriadam.github.io | linkedin.com/in/geri-adam-saputra | github.com/geriadam | Surabaya, Indonesia

PROFESSIONAL SUMMARY

Results-driven Fullstack Developer with 9+ years of experience designing and delivering scalable web and mobile applications across startup and enterprise environments. Recently architected and built a multi-entity ERP platform end-to-end (NestJS, Next.js, React Native, PostgreSQL). Proficient in TypeScript, React.js, Vue.js, Laravel, Node.js, and RESTful API development. Proven track record of improving application performance, leading code reviews, and translating complex business requirements into maintainable, high-quality software. Comfortable working in Agile/Scrum teams and collaborating with cross-functional stakeholders.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), PHP, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Vue.js, Tailwind CSS, Bootstrap, Blade

Backend: NestJS, Node.js, Express.js, Laravel, CakePHP, Yii2, REST API, GraphQL, BullMQ, JWT/RBAC, MVC, OOP

Mobile & Desktop: React Native (Expo), Electron

Database: PostgreSQL, Prisma, MySQL, MongoDB, Redis

State Management: Redux, Vuex, React Query, Zustand

Testing: Jest, PHPUnit

DevOps & Tools: Git, CI/CD (GitHub Actions), Docker, Turborepo, Nginx, Prometheus, Grafana, Agile/Scrum

Other: LLM API Integration (Claude, Gemini, OpenAI), Payment Gateway (DOKU/QRIS, GoPay), SEO Optimization, Web Performance, Accessibility (WCAG 2.1), Code Review

PROFESSIONAL EXPERIENCE

Fullstack Developer & Technical Lead

PT Sumber Wangi Masa | Apr 2026 – Sep 2026

- Architected and built **SWI ERP**, a custom multi-entity ERP (PT/CV/OP) for a manufacturing, wholesale, retail, and e-commerce group, as primary developer and technical lead
- Delivered a **Turborepo** monorepo with 5 apps and 2 shared packages: **NestJS** API, two **Next.js** web apps, **Expo/React Native** field app, and **Electron** Windows POS terminal
- Designed 39 API modules on **PostgreSQL** and **Prisma** covering purchasing, warehouse (FEFO), production/BOM, sales and commission, distribution, HR/payroll, and accounting (auto-journal, financial reports, tax, period closing)
- Implemented **RBAC** with 12 roles, multi-role and multi-company scoping, **JWT** refresh rotation, audit trail, and approval workflows with SLA escalation
- Built a mobile field app with GPS tracking, proof of delivery, and face-recognition attendance, plus an offline-ready POS with thermal printing and auto-update
- Integrated an **AI assistant** (Claude, Gemini, OpenAI) with audited tool calls to live ERP data and WhatsApp reports, plus **DOKU** (QRIS) payments, **Biteship** shipping, and AI-assisted bank statement reconciliation
- Led legacy data migration with a 7-phase XLSX import wizard (dry-run validation) and a legacy sales sync feature
- Set up **CI/CD** with self-hosted GitHub Actions runners (builds only changed images, auto-rollback on failed health checks), **Docker**, Prometheus/Grafana/Loki monitoring, and automated backups with restore tests

Web Developer & Consultant

Equinix Metal | Aug 2020 – Dec 2024

- Improved web application load performance by optimizing **Laravel Blade** rendering, **Docker**-based deployment pipelines, reducing asset bundle size, and minimizing JavaScript execution time — contributing to measurable page speed gains
- Built and maintained 10+ dynamic marketing pages using **Laravel**, **Blade**, and JavaScript for CMS-driven content workflows

- Developed and documented **RESTful APIs** to support backend services and content delivery pipelines
- Led code reviews across the team, enforcing coding standards and reducing post-release bugs through consistent quality gates

Frontend Developer (Freelance)

Self-Employed | Aug 2020 – Sep 2022

- Designed and built responsive, accessible UIs using **React.js**, **TypeScript**, and Tailwind CSS from Figma design specs
- Typed component libraries with **TypeScript** interfaces and strict prop validation — reducing UAT-reported bugs by 25%
- Developed lightweight **Node.js** backend services and REST API integrations to support frontend data requirements
- Improved mobile responsiveness by 40% through responsive layout refactoring using modern CSS and React patterns
- Produced technical documentation that reduced onboarding time for new developers by 35%

Fullstack Developer

Ternaknesia | Apr 2019 – Jul 2020

- Migrated legacy frontend to **Vue.js** using component-based architecture, improving UI maintainability and load performance
- Redesigned 3+ critical user flows based on stakeholder feedback, improving task completion rate
- Conducted system testing and resolved pre-production bugs, achieving zero critical defects at launch
- Collaborated cross-functionally with product, design, and backend teams to align technical delivery with business goals

Fullstack Developer (Freelance)

Inertia Web Development | Feb 2019 – Jul 2020

- Developed and delivered multiple client web applications using **Laravel** and WordPress within agreed timelines
- Built RESTful APIs and backend modules supporting scalable, multi-client application features
- Implemented responsive, cross-device-compatible frontend layouts
- Collaborated with designers using Git-based branching workflows for smooth feature delivery

Fullstack Developer

Wavegame | Oct 2018 – Feb 2019

- Developed backend services for GoPay payment gateway integration using **PHP** and **CakePHP**
- Built and maintained API endpoints supporting core platform features and transaction workflows
- Debugged and resolved production issues, maintaining 99%+ system uptime

Fullstack Developer

PokakoSoft | Jul 2017 – Aug 2018

- Built and maintained web applications using **PHP**, **Yii2**, and jQuery for multiple business clients
- Translated business requirements into technical implementations across 5+ concurrent projects
- Documented technical processes and created onboarding materials, improving team knowledge transfer

EDUCATION

Bachelor of Computer Science — Software Engineering

Institut Teknologi Adhi Tama Surabaya | Graduated Aug 2022 | GPA: 3.49/4.00
