Geri Adam Saputra

FULLSTACK DEVELOPER

geriadam.github.io | linkedin.com/in/geri-adam-saputra | github.com/geriadam | Surabaya, Indonesia

PROFESSIONAL SUMMARY

Results-driven Fullstack Developer with 7+ years of experience designing and delivering scalable web applications across startup and enterprise environments. Proficient in JavaScript (ES6+), TypeScript, React.js, Vue.js, Laravel, Node.js, and RESTful API development. Proven track record of improving application performance, leading code reviews, and translating complex business requirements into maintainable, high-quality software. Comfortable working in Agile/Scrum teams and collaborating with cross-functional stakeholders to ship reliable products on time.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP, HTML5, CSS3

Frontend: React.js, Vue.js, Next.js, Tailwind CSS, Bootstrap, Blade

Backend: Node.js, Express.js, Laravel, CakePHP, Yii2, REST API, GraphQL, MVC, OOP

Mobile: React Native

Database: MySQL, MongoDB

State Management: Redux, Vuex, React Query

Testing: Jest, PHPUnit

DevOps & Tools: Git, CI/CD, Docker, Agile/Scrum

Other: SEO Optimization, Web Performance, Accessibility (WCAG 2.1), Code Review

PROFESSIONAL EXPERIENCE

Web Developer & Consultant

Equinix Metal | Aug 2020 – Dec 2024

- Improved web application load performance by optimizing **Laravel Blade** rendering, **Docker**-based deployment pipelines, reducing asset bundle size, and minimizing JavaScript execution time — contributing to measurable page speed gains
- Built and maintained 10+ dynamic marketing pages using **Laravel**, Blade, and JavaScript for CMD-driven content workflows
- Developed and documented **RESTful APIs** to support backend services and content delivery pipelines
- Led code reviews across the team, enforcing coding standards and reducing post-release bugs through consistent quality gates

Frontend Developer (Freelance)

Self-Employed | Aug 2020 – Sep 2022

- Designed and built responsive, accessible UIs using **React.js**, **TypeScript**, and Tailwind CSS from Figma design specs
- Typed component libraries with **TypeScript** interfaces and strict prop validation — reducing UAT-reported bugs by 25%
- Developed lightweight **Node.js** backend services and REST API integrations to support frontend data requirements
- Improved mobile responsiveness by 40% through responsive layout refactoring using modern CSS and React patterns
- Produced technical documentation that reduced onboarding time for new developers by 35%

Fullstack Developer
Ternaknesia | Apr 2019 – Jul 2020

- Migrated legacy frontend to **Vue.js** using component-based architecture, improving UI maintainability and load performance
- Redesigned 3+ critical user flows based on stakeholder feedback, improving task completion rate
- Conducted system testing and resolved pre-production bugs, achieving zero critical defects at launch
- Collaborated cross-functionally with product, design, and backend teams to align technical delivery with business goals

Fullstack Developer (Freelance)
Inertia Web Development | Feb 2019 – Jul 2020

- Developed and delivered multiple client web applications using **Laravel** and WordPress within agreed timelines
- Built RESTful APIs and backend modules supporting scalable, multi-client application features
- Implemented responsive, cross-device-compatible frontend layouts
- Collaborated with designers using Git-based branching workflows for smooth feature delivery

Fullstack Developer
Wavegame | Oct 2018 – Feb 2019

- Developed backend services for GoPay payment gateway integration using **PHP** and **CakePHP**
- Built and maintained API endpoints supporting core platform features and transaction workflows
- Debugged and resolved production issues, maintaining 99%+ system uptime

Fullstack Developer
Pokakosfot | Jul 2017 – Aug 2018

- Built and maintained web applications using **PHP**, **Yii2**, and jQuery for multiple business clients
- Translated business requirements into technical implementations across 5+ concurrent projects
- Documented technical processes and created onboarding materials, improving team knowledge transfer

EDUCATION

Bachelor of Computer Science — Software Engineering
Institut Teknologi Adhi Tama Surabaya | Graduated Aug 2022 | GPA: 3.49/4.00
